

HARTEST WEBSITE REPORT 2016

I have continued to keep the website up to date during the past 12 months, constantly changing both the colours and layout where possible to keep it looking `fresh`.

I am now actively working to recruit a `younger` volunteer to put information about forthcoming events onto the `**Hartest Village Facebook page**`. I have started setting this up but am hopeless on Facebook so feel if I can find someone with expertise in this direction and who may also have links to the school / pre school / youth club it would give it a more `rounded` view of what goes on in Hartest. The plan is that we could exchange information between us to keep everything really up to date.

Last year I had information regarding the number of visits to the site etc, but due to change of computer I cannot access this information at present, I will try to get this sorted out shortly.

I am happy to continue working on the site, but if there is anyone who would like to become involved I am more than happy to listen to their ideas.

Sue Lewis
