

The Local Government Boundary Commission for England

Have your say:

We are now consulting local people on a new pattern of wards for Babergh District Council. The Commission has an open mind about its final recommendations and will consider every piece of evidence it receives from local groups and people, regardless of whom it is from or whether it relates to the whole council area or a part of it.

If you agree with our new recommendations, please let us know. If you don't think our recommendations are right for Babergh, we want to hear alternative proposals for a different pattern of wards.

The Commission aims to propose a pattern of wards for Babergh District Council which delivers:

- **Electoral equality:** each councillor represents a similar number of voters.
- **Community identity:** reflects the identity and interests of local communities.
- **Effective and convenient local government:** helping your council discharge its responsibilities effectively.

A good pattern of wards should:

- Provide good electoral equality, with each councillor representing, as closely as possible, the same number of voters.
- Reflect community interests and identities and include evidence of community links.
- Be based on strong, easily identifiable boundaries.
- Help the council deliver effective and convenient local government.

Electoral equality:

- Does your proposal mean that councillors would represent roughly the same number of voters as elsewhere in the council area?

Community identity:

- **Transport links:** are there good links across your proposed ward? Is there any form of public transport?
- **Community groups:** is there a parish council, residents association or another group that

represents the area?

- **Facilities:** does your pattern of wards reflect where local people go for shops, medical services, leisure facilities etc?
- **Interests:** what issues bind the community together or separate it from other parts of your area?
- **Identifiable boundaries:** are there natural or constructed features which make strong boundaries for your proposals?

Effective local government:

- Are any of the proposed wards too large or small to be represented effectively?
- Are the proposed names of the wards appropriate?
